

**„Health and Well-being of Medical Students and Practitioners“**

Candidates are invited to apply for a PhD position (75%, € 1996,90 gross payment x 14) on „Health and Well-being of Medical Students and Practitioners“ at the Innsbruck Medical University, Department of Medical Psychology, Innsbruck, Austria.

This three year PhD-project will seek to identify and test the psychological factors, which can promote resilience, health and well-being in medical students in training.

The project involves contributions from the fields of health psychology, positive psychology and work and organizational psychology. The project will be supervised by Prof. Dr. Stefan Höfer, Innsbruck Medical University.

Anticipated start date is 1<sup>st</sup> of November (negotiable).

**REQUIREMENTS**

For this position, a highly motivated, self-driven candidate is being sought.

Relevant background knowledge in health psychology and/or positive psychology is required.

Interest and experience in psychometrics would be a definite asset.

**QUALIFICATIONS**

Applications are invited from candidates with a completed Master Degree in Psychology.

Candidates should possess excellent knowledge of online research methods and data analysis.

Excellent German and fluent English are a prerequisite.

Please send your application by 25<sup>th</sup> of September electronically to:

Prof. Dr. Stefan Höfer  
Department of Medical Psychology
